## **Abstract:**

The English language is worldwide language. It is very necessary to know that English language created integral place in globalization. It is the language which prove that, it is language for international communication and symbolically part of globalized world .We do believe that the English language has significant role in the entry of worlds top most Universities and fields etc. The international economy depends on growing international commerce, financial and technological developments .So if nation wants to exists strongly in this competitive world sharp and employees having good at English are needed. From this we can say that English won relevant place in globalization. Number of branches/ sectors/ faculties are opening the doors for the world. Ones progress and success in life depends whatever the demands of global market English is becoming need of it so that achieving English skill means able to enjoy the advantages of globalization through powerful English.

## **Introduction**

We should understand the development of international relationship and regulation of world It is becoming global village in accordance with vast changes in technology learning and living patterns etc .this phenomenon we called globalization. Now a days the English language becomes important tool / medium for communication to international organization and other powerful sources. The term globalization also suggests us the worlds trading, business relationship shifting educational branches widening the cultural identity development of economical policies and make way towards economical, social and making the developing country in every angle/ sector.

The role of English in globalization at most important, there are vast demands of workers/ employees in technological world so knowledge of English is must to catch such opportunities. Number of changes and inventions are occurring in scientific world. Today the instruments we are handling like cell phones, internet and

other brought us luxurious life significant changes in lives of mankind One thing must be noted that the ability of ones can be decided on account of acquiring good skill of English. Not only Govt./ semi Govt. sectors but many multinational companies are concentrating on fluent English speaker employees and other official workers for the world of communication etc. To sum up I want to say that English skill has becoming tool for the achievement of highly remunerative jobs and handsome salaries etc. This paper is tried to introduce crucial place of English language in the era of globalization on following sub points.

### **English is used as Official & Professional Language:**

English language is considered as official language, it is included in six official languages. The reason is that English is very relying language which is working within and outside the country. The fact is that in this globalised world it is need of hour that one should very efficient in English to communicate through out the world. We can say that English skill is reckoning the major pillar to develop professional life in globalization. Taking this into consideration ,he country like China people are preferring to talk in English rather than Chinese. Scholars , engineers, doctors, researchers, historians from their native countries are shifted to other countries, in this regard survey proved that Asian countries have large ratio they settled to developed countries they face the problem of language .So English language is a basic need to settle/ establish or make them able to get required/ decided place and designation etc. Therefore English language becomes formally professional and global language. If any country wanted to develop relationships with neighbor countries English is language which made it possible otherwise the crash of political and commercial barrier may take place in future which resulted in low level of financial system of country and other factors are affected. Better part of progress/ development / installation is that countries should interconnect with use of English as an international language.

### **English language the medium for Exchange of Culture, Heritage etc.**

The English language is playing the vital part in exchanging culture of ones country. There are numbers of writers in English who make their countries traditions, culture, history reachable to all over the world. many writers use to write in their regional language/ mother tongue If we want to make such literature reachable to the world , It

needs the language which is well known through the world .English is single language which made it possible .the literature of Rabindranath Tagore translated into English which is written in Bengali similarly Tuka Says is translated into English language by Dilip Chitre for NRI people.It is also observed that from survey and study English is considered as first language and half of population of world will be proficient in English in coming decades. It is English language which made great impact on sharing, distributing, and celebrating different traditions, culture, thoughts, policies and progressive tracks of various nations definitely it will enhance the better recognition mutually. We can say that English language is helping to bring people, culture, and advancement of thoughts beliefs together, from different region, country, religion and strata, etc.

### **Supportive to migration for educational purpose**

It is very clear to all of us that it is the language of 21<sup>st</sup> century and it is started with it. The educational field broadening its coverage across the world the faculty members, students, researchers are eager/ interested to do their higher studies etc. They refer topmost and reputed universities/ institutions etc. So such people/ fellows some times they have to struggle for it if language barrier is came up they deprived from the opportunities, the reason is that they should very fluent or at least known about the language which is very familiar to both the part .Now days worlds top most universities are shifted into English. So we can identify the importance of English in higher education and getting employments etc. The students from world wish to shifted to anywhere within apart from native, they should accompanied with standard {proficient} English. English skill play an important role in stepping towards better universities / institutions .the test like TOEFL, TOEIC and TEPS and some online and off line test are conducted to examine knowledge of English. So it is very right to say that English skill is becoming most crucial factor/ step to generate success of ones life.

### **Language for mass media- way to expression**

The Globalization made its impression not only trading education etc but contribute to grow International conscious hence the term One world is coined. It means that approach is possible to all over the world. There are many problems in world we can say that they are global and interdependent needs which cannot be satisfied

without help. The single language has power to possess the world with similar / equivalent values and aspirations. Values can be distributed, and needs are communicable around the globe. The powerful medium can be utilized with single known language to preserve values beliefs etc. There are various medias we are experiencing like internet social networking sites 3G calling etc. are powerful reachable and convincing which connects people around the world. We see that English language is widely used for it. This is a language that is accepted by the world. The world is connected/ connecting with within itself socially, politically, economically with the touch of English. The Government of country use/need English language to advocate the policies, discuss and debate on crucial issues. Experts/journalists are use to deal with this language to know the social, Governmental, democratic policies of unknown country with unknown languages.

## **Conclusion**

The Importance of English lies on its users it is seen that impression of it is in increasing order by its users. It the language of library sciences which can consider as source to gather the knowledge. Secondly it is also referred for extension of social network in the world and it goes beyond boundaries. Teaching learning process installed multicultural aspects and English language very middle media to become it successful. As per the global market some new methods are introduced to make the students able to communicate in English fluently .The methods like communicative language teaching, stress on spoken English are existed in higher classes etc. The famous writer **Salman Rushdie** in an essay in 1991 quoted that '*The people who were once colonized by the language are now rapidly remaking it, domesticating it, becoming more and more relaxed about the way they use it*'.
